**BACKGROUND (UPDATE ON PREVIOUSLY REPORTED PROJECTS):****09-Iny 395 - Department**

In May 2005, funds were allocated for a project in Inyo County to resurface roadway pavement on Route 395 in and near the City of Bishop. The project bids were opened on July 26, 2005. One bid was received at 71 percent above the Engineer's Estimate. Current materials price and lack of a competitive bidding environment were the primary factors to the high bid. The bid was rejected, and the project has been revised to address the areas with the most distressed pavement. The project has been repackaged to increase the number of bidders while still addressing the need and purpose. The Department reviewed project options, and it was determined that it was in the best interest of the State to proceed. The Commission approved supplemental funds to re-advertise and an extension for the period of contract award at the June 2006 meeting. The project has been advertised, and bid opening is scheduled for August 30, 2006.
